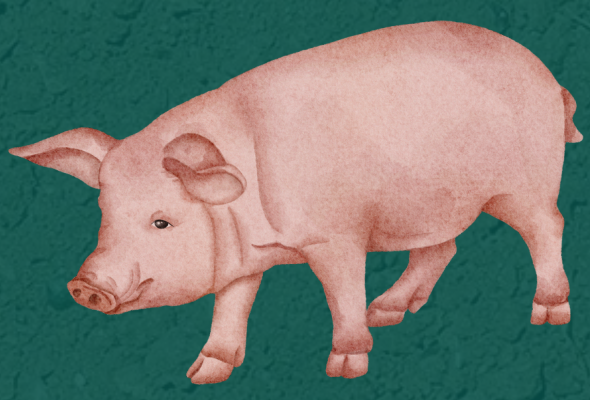
NeoGiANT

Sustainable Solutions for Animal Health and Agriculture

Revolutionizing Animal Health

NeoGiANT is taking a giant leap in sustainable agriculture! By harnessing low-cost polyphenols from white grape marc biomass, we're creating natural antimicrobial and antioxidant products that are not only effective but also environmentally friendly. Say goodbye to harmful chemicals and hello to a greener future!



Natural & Effective

With NeoGiANT, we're using local biomass sources to produce natural extracts that protect animal health without side effects. Our cost-effective and eco-friendly products are designed to replace synthetic compounds, ensuring better health for animals and a cleaner planet.

Leading the Circular Economy in Animal Health

By converting grape marc biomass into valuable antimicrobial and antioxidant products, we're reducing waste and providing affordable solutions that meet market demands in the FEED, PHARMA, and ARTIFICIAL INSEMINATION sectors

Reducing Antibiotic Use

NeoGiANT is paving the way for healthier animals and fewer antibiotics. Our natural products aim to control key diseases in livestock and aquaculture, providing effective alternatives to traditional antibiotics and helping combat antimicrobial resistance.
