

# SISTERS

Systemic Innovations for a Sustainable  
reduction of the European food waste

The SISTERS project aims to reduce food loss and waste in the main stages of the Food Value Chain in Europe through innovations targeted to each stage of the chain: New tools for primary producers for promoting direct and Short Chain sales; new technological innovations in packaging for processors and retailers; and awareness campaigns for retailers and consumers on food loss and waste. It will be a key EU project addressing the problem in a holistic way, reducing Food Loss & Waste by 27.4% and CO2 emissions by around 20% in the case studies.

The SISTERS project started on November 1st, 2021 and is set to end on April 30th, 2026 (4.5 years). The consortium is formed by 18 partners and 3 linked third parties from 8 different European countries: Spain, Italy, France, Belgium, Sweden, Croatia, Ireland and Switzerland.
